About

The Florida Department of Transportation's contractor, Engineer Control Systems Corporation, is performing bridge maintenance activities that include slope protection and concrete cap repairs at the ends of each access road under the SR 60 (Courtney Campbell Causeway) Bridge in Hillsborough County.

Most construction activities will take place during daytime hours. Access roads leading to the construction sites will close to motorists and pedestrians throughout the duration of the project.

Motorists traveling along SR 60 (Courtney Campbell Causeway) should not be impacted by this bridge maintenance project.

Construction activities are expected to finish during summer of 2024, weather permitting.
