About

This project will construct a 3-lane Southbound Collector-Distributor (CD) road system from the I-75/I-275 apex to the SR 56 southbound on-ramp to compliment Northbound CD road system in Wesley Chapel.

This includes:

- A new 2-lane Southbound on-ramp from the CD roadway to Southbound I-75 which will require widening the bridge over Cypress Creek.
- A new bridge over Cypress Creek for the southbound CD roadway
- A new fork of I-75/I-275 southbound
- A new bridge of Southbound I-275 over the CD road ramp to Southbound I-75
- New concrete barrier wall separation between I-75 Southbound mainline and the proposed Southbound CD roadway.
- A proposed ramp from the Southbound CD roadway to Southbound I-75.

The project is currently in the design phase and has been combined with FPN 430573-3.

Construction is anticipated to begin in 2026.
