About

The purpose of this project is to provide additional roadway capacity and improve safety on this portion of US 301 in unincorporated Hillsborough and Pasco Counties.

US 301 is a major north-south roadway used for travel through Hillsborough and Pasco counties and provides access to many of the area’s major roadways, including I-4, SR 39, SR 54 and SR 52.

The US 301 corridor is a vital roadway within the Tampa Bay area and serves as an emergency evacuation route.
