

US 301/SR 43 Intersection Improvements at Symmes Road

445392-1-52-01

Project Details			
Work Type	Rigid Pavement Reconstruction, Traffic Signals, and Signing/Pavement Markings. Associated drainage, ADA, and safety improvements.		
Phase	Design	<div>About</div> <p>The purpose of this project is to reconstruct the intersection of US301 at Symmes Rd. in Hillsborough County. The intersections will be constructed with rigid pavement to provide a sustainable surface with a longer service life. The work also includes minor drainage improvements, bringing ADA features into conformance with current standards, and perform general safety modification work.</p> <p>A traffic signal will also be added at the intersection of US 301 and Shady Preserve Drive as part of this project.</p> <p>This project is currently in the design phase. Construction is anticipated to begin in 2025.</p>	
Limits	Intersection of US 301/Symmes Rd, extending along US 301 from one quarter-mile south of Symmes Rd to one quarter-mile north of Symmes Rd		
Length	.530 Miles		
City	Riverview		
County	Hillsborough		
Road	US 301		
Design Cost	\$482,000
