**Brandon, FL** – Traffic on State Road 60 in Brandon between Falkenburg Road and US 301 will be shifted into a new temporary alignment beginning tonight, Nov. 15<sup>th</sup>. Westbound traffic will be shifted first, followed by eastbound traffic early next week.

The shift to the new alignment will provide the contractor the space needed to widen the eastbound lanes and build the new drainage system on the south side of the roadway.

Access to businesses on both sides of SR 60 will be maintained. Motorists are advised to use caution and watch for workers throughout the work zone.

For more information about the current construction project visit the project webpage <http://www.fdotampabay.com/project/184/405525-2-52-01>
