

SR 39 Intersection Pavement Reconstruction at Trapnell Road 445393-1-52-01

Project Details	
Work Type	Rigid Pavement Reconstruction
Phase	Construction
Limits	SR 39 at Trapnell Road
Project Start	October 13, 2025
Length	.53 Mile
City	Plant City
County	Hillsborough
Road	SR 39
Construction Cost	\$8 million
Estimated Completion	Fall 2026
Contractor	Webber, LLC

About

Last year, traffic on SR 39 shifted to the west side of the road between Sparkman Road and Kilgore Road through the Trapnell Road intersection.

Over the coming months, drivers may experience traffic delays and congestion on SR 39 as crews build the new concrete roadway. Travel lanes through the intersection (eastbound/westbound Trapnell Road) remain open to traffic along with maintaining driveway and emergency vehicle access.

Message boards and signage are in place assisting drivers traveling through the area. Motorists are reminded to slow down, stay alert, and drive safely through the work zone.

The Florida Department of Transportation (FDOT) is making improvements to the intersection of SR 39 and Trapnell Road in Hillsborough County. This project is replacing the intersection's asphalt pavement with a durable concrete surface.

For more information on this project or to sign up to receive traffic alerts, visit [FDOTTampaBay.com](https://fdottampabay.com).
