About

On Friday, November 7, 2025, traffic on SR 39 shifted to the west and has been reduced to one lane in each direction between Sparkman Road and Kilgore Road through the Trapnell Road intersection.

Over the coming months, drivers may experience traffic delays and congestion on SR 39 as crews build the new northbound concrete roadway. Travel lanes through the intersection (eastbound/westbound Trapnell Road) will remain open to traffic during this phase of construction, along with maintaining driveway and emergency vehicle access.

Message boards and signage will assist drivers traveling through the area. Motorists are reminded to slow down, stay alert, and drive safely through the work zone.

The Florida Department of Transportation (FDOT) is making improvements to the intersection of SR 39 and Trapnell Road in Hillsborough County. This project is replacing the intersection's asphalt pavement with a durable concrete surface.

For more information on this project or to sign up to receive traffic alerts, visit <u>FDOTTampaBay.com</u>.
