About

The Florida Department of Transportation's Design-Build Firm, Cone & Graham, Inc., is making operational improvements by modifying the turning radii for freight trucks at two locations on SR 580 (W. Hillsborough Avenue) in Hillsborough County:

Type of modifications and locations:

- at SR 589 (Veterans Expressway) extension of the 580 (W. Hillsborough Avenue) right turn lane onto SR 589 (Veterans Expressway)
- at Benjamin Road conversion of the southbound approach to dual left and dual right lane configuration onto 580 (W. Hillsborough Avenue).

Construction activities are expected to be begin in late 2025.

What is design-build? Design-build is a method of project delivery in which one entity - the design-build team - works under a single contract with the FDOT (or any owner) to fully design and construct a project. **The contract work covers from initial design through construction completion.** This contract type typically allows for faster construction of a project as design and construction can be on-going simultaneously.
