About

As of March 1, 2026, all construction activities associated with this project have been completed.

This project will address safety improvements with the permanent left turn lane closure just north of US 19 and Marine Parkway intersection in Pasco County.

Other elements of work include roadway construction/widening, drainage adjustments, curb and gutter, and all necessary signs and pavement markings.

Construction activities are expected to complete in spring 2026.

****

What is design-build? *Design-build is a method of project delivery in which one entity - the design-build team - works under a single contract with the FDOT (or any owner) to fully design and construct a project.* ***The contract work covers from initial design through construction completion.*** *This contract type typically allows for faster construction of a project as design and construction can be on-going simultaneously.*
