### About

The Florida Department of Transportation's Design-Build firm, Cone & Graham, Inc., is making roadway lighting improvements to SR 688 (Ulmerton Road) from 49th Street to I-275 in Pinellas County.

Safety improvements include installing new light poles and retrofitting existing light poles along SR 688 (Ulmerton Road).

Construction activities are expected to begin in fall 2025.

What is design-build? Design-build is a method of project delivery in which one entity - the design-build team - works under a single contract with the FDOT (or any owner) to fully design and construct a project. **The contract work covers from initial design through construction completion.** This contract type typically allows for faster construction of a project as design and construction can be on-going simultaneously.
