About

As of January 8, 2026, all construction activities associated with this project are complete.

The Florida Department of Transportation's Design-Build firm, Cone & Graham, Inc., will be completing safety and operational improvements at the SR 54 and US 41 intersection in Pasco County. The project includes milling and resurfacing the existing roadway pavement and extending the eastbound right turn lane to improve traffic flow and reduce congestion.

Construction activities are expected to complete spring 2026.

****

What is design-build? *Design-build is a method of project delivery in which one entity - the design-build team - works under a single contract with the FDOT (or any owner) to fully design and construct a project.* ***The contract work covers from initial design through construction completion.*** *This contract type typically allows for faster construction of a project as design and construction can be on-going simultaneously.*
