About

This construction project is addressing safety and operational improvements with the construction of a new traffic signal on State Road 60 (Adamo Drive) at 26th Street intersection in Hillsborough County.

Elements of work shall include, but are not limited to, installation of the signal, roadway resurfacing, and sidewalk, pedestrian and lighting improvements.

Construction activities are expected to complete early 2027.

****

What is design-build? *Design-build is a method of project delivery in which one entity - the design-build team - works under a single contract with the FDOT (or any owner) to fully design and construct a project.* ***The contract work covers from initial design through construction completion.*** *This contract type typically allows for faster construction of a project as design and construction can be on-going simultaneously.*
