**About**

This project is rebuilding and extending the length of the SR 60 entrance ramps onto northbound I-75 and modifying the southbound I-75 exit ramp to the Selmon Expressway (Exit 256) to improve safety and traffic flow on I-75.

Other improvements include reconstruction of entrance ramps, new bridges and bridge widening, and upgrades to drainage and lighting.

*This project has been combined with design projects 428955-1 and 428956-1 to be built as a single construction project.*
