

Heights Mobility Study 440511-1-22-01

Project Details	
Work Type	Corridor/Subarea Study
Phase	Study
Limits	Scott Street to Waters Avenue
City	Tampa
County	Hillsborough
Road	Florida Ave (Hillsborough) Tampa St US 41 Business

Contact Information	
Study Manager	Alex Henry 813-975-6405 Alex.henry@dot.state.fl.us
Media Contact	Kris Carson 813-975-6060 Kristen.Carson@dot.state.fl.us

About

The Heights Mobility Study is an effort to improve safety and mobility within the Greater Seminole/Tampa Heights neighborhoods, primarily along the Florida Avenue and Tampa Street/Highland Avenue corridor between downtown Tampa and the Hillsborough River. Additionally, the Study team is working with the community to develop a longer-term transportation vision for the neighborhoods.

The Study is based on engaging the communities along the corridor in order to achieve the following objectives:

- Identify opportunities for actionable short-term safety and mobility improvements
- Develop a clear understanding of existing and future community character and develop mobility strategies to support the community needs.
- Build consensus around a Mission, Vision, and Goals for the Florida Avenue and Tampa Street/Highland Avenue corridor moving forward.

Dependent on the community’s vision, future Study phases may include engineering design, and ultimately a project for construction.

Additional information on the Study and opportunities for involvement can be found at www.heightsmobility.com
