### About

#### **THIS PROJECT WAS PARTIALLY ACCEPTED ON 2/9/21**

The Florida Department of Transportation's Design-Build Firm, Ajax Paving Industries of Florida, is making safety improvements that include the construction of mid-block crosswalks with ground-mounted Rectangular Rapid Flashing Beacons (RRFB) at two locations along US 41 (Nebraska Avenue) just south of Fowler Avenue and south of 113th Avenue in Hillsborough County.

Improvements include:

- installation of mid-block crosswalks with raised traffic separators and pedestrian refuges
- installation of RRFBs
- installation of new roadway lighting
- upgrading existing roadway lighting to LED
- adding signage and necessary pavement markings

Motorists should expect intermittent daytime and nighttime lane closures.

This project is expected to finish in early 2021.
