The FDOT's contractor, Lane Construction, has begun construction activities as part of the I-275 Capacity Improvement project in Tampa. The \$85.3 million project is adding one lane in each direction to I-275 from north of I-4 to north of Hillsborough Avenue (US 92) using the department's existing right-of-way.

Other improvements include constructing noise barrier walls along the corridor, installing fencing and Intelligent Transportation System (ITS) devices, and reconstructing the overpasses (Floribraska Avenue, Lake Avenue, Martin Luther King Jr. Boulevard, Chelsea Street, Osborne Avenue, and Hillsborough Avenue).
