Limits	from the Hernando County line to the Marion County line
Project Start	October 2020
Length	29 miles
City	Citrus Springs Inverness
County	Citrus
Construction Cost	\$1 million
Estimated Completion	Summer 2021
Contractor	Ajax Paving Industries of Florida, LLC

About

This design build project will repave the Withlacoochee Trail in Citrus County. There are sections of the 29 miles of the trail in Citrus County that will be rebuilt due to the condition of the existing pavement. Mid-block crossing enhancements are also planned at CR 48 (Orange Avenue) in Floral City.

Design began in October 2020 and construction began in January 2021. The overall project is anticipated to be completed in summer 2021.

Another portion of Withlacoochee State Trail is now closed

Citrus Springs -- A segment of the trail is now closed from south of N. Citrus Springs Boulevard to N. Haitian Drive, as of Tuesday, February 23, 2021. Approximately 1.5 miles of the trail will be rehabilitated in this area, with a reopening expected in four to six weeks. The public is restricted from entering the closed area from either end 24-hours per day. No detours are provided; trail users will need to turn around at the closure sites or seek alternate routes using public roads.

Work on Segments 2 and 3 has been completed (as described below).
