About

All construction activities associated with this project were completed on Monday, April 28, 2025.

This project widened Reo Street from a two-lane road to a four-lane road from Cypress Street to Gray Street in Tampa.

The newly widened roadway has two southbound lanes, one northbound lane, and along the center a two-way turn lane.

Improvements to the intersection of Cypress Street and Reo Street included adding an eastbound right turn lane, a westbound left turn lane, and installing a new traffic signal.

In addition, a 10-foot-wide sidewalk was added along Reo Street from Gray Street to Cypress Point Park.
