Length	8 miles
City	Dade City San Antonio St. Leo
County	Pasco
Road	CR 52
Construction Cost	\$10.2 million
Estimated Completion	Summer 2025
Contractor	Watson Civil Construction, Inc.

About

Two projects have been combined to be built under one design-build construction project:

- Resurfacing of CR 52** from west of Storch Lane to US 98/US 301 (439832-1-52-01); and
- CR 52 at College Avenue / Pompanac Street Roundabout** (439832-3-52-01).

The project will repave CR 52 (formerly SR 52) between Storch Lane in San Antonio and US 98/US 301 in Dade City. A roundabout will be constructed at the intersection of CR 52 and College Avenue / Pompanac Street in the City of San Antonio. City of San Antonio utilities will also be relocated for the roundabout.

Here is a cost breakout for construction of each of the three major portions of the construction project:

- CR 52 milling and resurfacing (project 439832-1-52-01); \$7.2 million.
- CR 52 & College/Pompanac Roundabout (project 439832-3-52-01): \$2.7 million
- City of San Antonio Utility relocations for roundabout (project 439832-3-56-01): \$280,500
