About

All construction activities associated with this project were completed on Friday, November 14, 2025.

This project constructed a seawall and shared-use path along the northside of I-275 between Reo Street and the Howard Frankland Bridge.

Completed travel lanes will connect from the Westshore Interchange to southbound I-275 as part of this project.

Construction activities began March 27, 2023, and finished on November 14, 2025.
