About

This project addresses safety improvements with the construction of a new traffic signal at Commercial Way (US 19) at Centralia Road in Hernando County (Brooksville).

Elements of work shall include, but are not limited to, installation of the signal mentioned above, resurfacing of the roadway, sidewalk construction, and pedestrian features as necessary to accommodate pedestrian traffic with minimum impact to the current vehicular traffic patterns.

Construction activities are expected to be complete in late 2024.

What is design-build? *Design-build is a method of project delivery in which one entity - the design-build team - works under a single contract with the FDOT (or any owner) to fully design and construct a project. **The contract work covers from initial design through construction completion.** This contract type typically allows for faster construction of a project as design and construction can be on-going simultaneously.*
