About

As of October 25, 2022, all construction activities associated with this project have been completed.

This construction project addresses safety improvements with the extension of the northbound left-turn lane just south of the existing signalized intersection at Nebraska Avenue (US 41) and Fletcher Avenue in Hillsborough County.

This is improving the operation of the intersection by extending the existing Nebraska Avenue northbound left-turn lane to provide maximum queue storage within the existing Fletcher Avenue median.

Construction activities are expected to finish by late 2022.
