<b>Media Contact</b>	Kris Carson (813) 975-6060 Kristen.Carson@dot.state.fl.us

### About

As part of the improvement project on SR 590/ Drew Street from Osceola Avenue to US19, FDOT is proposing the following:

- Road resurfacing, upgrading ADA features, and improving lighting.
- Realigning Cleveland Street and Missouri Avenue by installing a new raised median to separate turning movements and to reduce crashes.
- New raised median along Drew Street from N. Missouri Avenue to the signalized intersection to reduce conflicts and improve safety.
- Lane reduction from four lanes to two lanes from Osceola Avenue to Myrtle Avenue with a separated bike lane.
- Widening between Missouri Avenue and Betty Lane to improve safety and access.
- Closing the median opening at Cirus Avenue and extend the left-turn lane at Hercules Avenue to minimize turning conflicts and improve traffic flow and roadway safety.

These changes aim to improve safety, traffic flow, and accessibility for all users. Construction is anticipated to begin in 2026.
