| Length | 1.6 miles |
| City | Dade City |
| County | Pasco |
| Road | US 98 |
| Construction Cost | \$43.9 million |
| Estimated Completion | Summer 2026 |
| Contractor | Cone & Graham, Inc. |

About

This design-build project is widening US 98, also known as the Dade City Bypass, from two lanes to a four lane highway between 7th St. S and 7th St. N.

Two roundabouts have been built with the project: One is at 7th Street S and one has been constructed and all movements are open at Old Lakeland Highway.

New traffic signals have been added at the Meridian Avenue, 7th Street N, and River Road intersections. The existing signal at Martin Luther King Jr. Boulevard will be improved. Sidewalks will be built on both sides of the highway.

With a design-build project, the contractor is responsible for finalizing the design plans and building the improvements. The design portion of the contract began in March 2023. Construction work began in late January 2024.
