## About

***As of April 9, 2025, all construction activities associated with this project have been completed.***

The Florida Department of Transportation's Design-Build firm, Cone & Graham, Inc., is installing a new traffic signal at Morris Bridge Road (CR 582A) onto the southbound I-75 entrance ramp in Hillsborough County.

Other safety and operational improvements include roadway resurfacing, installing sidewalk, and extending the westbound left-turn lane from Fletcher Avenue onto the I-75 southbound entrance ramp.

Construction is underway and expected to be complete in spring 2025.

**********

What is design-build? *Design-build is a method of project delivery in which one entity - the design-build team - works under a single contract with the FDOT (or any owner) to fully design and construct a project.* ***The contract work covers from initial design through construction completion.*** *This contract type typically allows for faster construction of a project as design and construction can be on-going simultaneously.*
