New Traffic Pattern: Northbound I-275 from I-4 to Hillsborough Ave

Tampa, FL - Beginning Tuesday, March 12, 2024, the I-275 capacity improvements project team will begin implementing a new traffic pattern over a three-week period of all northbound I-275 travel lanes from north of the I-4 interchange to north Hillsborough Avenue in Tampa.

The new traffic pattern will shift northbound I-275 traffic toward the outside travel lanes to allow crews the space to perform construction activities within the interstate's median. This phase of construction will remain in place into 2025.

Advanced warning signs and electronic message boards are in place to assist motorists traveling through this area. Motorists should use caution while traveling through the work zone and are reminded to remain alert for construction workers.

For more information on the I-275 capacity improvements project or to sign-up to receive traffic alerts, please visit FDOTtampabay.com
