Crystal River, FL — The Florida Department of Transportation's contractor, City Wide Paving, is making improvements to the drainage pond located at the southeast corner of Suncoast Boulevard (US 98/19) and N.E. 5th Street (SR 44) in Citrus County.

As part of the improvements, this retention pond is being restored to its original shape, depth and functionality. Construction activities include maintaining erosion control devices, excavation and grading of pond floor and side slopes, installation of sod and complete stabilization of pond.

Most construction activities will take place during daytime hours. Roads leading to the construction site are accessible from N.E. 5th Street and N.E. 7th Avenue.

This \$142,928 project is expected to finish by the end of 2016.
