Now Open: Bloomingdale Avenue Travel Lanes at US 301

Riverview, FL – Bloomingdale Avenue between US 301 and Robert Tolle Road is now open to traffic. Early this morning, crews opened the new concrete lanes on Bloomingdale Avenue to the east of US 301, allowing motorists to travel through this intersection.

Over the next 21 days, the northbound US 301 travel lanes and entrance ramp to I-75 will be replaced with concrete pavement, weather permitting.

Motorists should anticipate traffic delays and congestion as fewer travel lanes (northbound and southbound US 301) and turn-lane (westbound Bloomingdale Ave onto southbound US 301) continue.

Access to businesses, residents, and emergency vehicles to be maintained. Advanced warning signs and electronic message boards will assist motorists traveling through this area.

Last month, the Florida Department of Transportation began replacing the asphalt pavement with a durable concrete surface at the intersection of US 301 and Progress Boulevard/Bloomingdale Avenue in Riverview. This intersection work is being done in phases and will take approximately 55 days to complete.
