

## Florida Department of Transportation

### Traffic Advisory for SR 54 east of US Highway 41

Land O' Lakes, FL – Important roadwork will take place on SR 54 that will likely cause some increased daytime traffic congestion along SR 54 in the US 41 area.

During the US 41 / SR 54 resurfacing project, voids were discovered under SR 54 just east of the Lowe's / Village Lake shopping center intersection. These voids require extensive repairs that will include closures in the eastbound and westbound travel lanes. Here are the details:

#### Roadway & Driver Impacts

1. The contractor must do most of the work during the day with single lane closures. Eastbound SR 54 lane closures will begin west of US 41.
2. A double lane closure will be needed daily for approximately six days and an extended double lane closure will be used for two days over a weekend.
3. Except for the weekend work, lane closures are planned from 9 a.m. to 4/5 p.m. Mondays through Fridays.
4. The work zone speed limit will be reduced to 45 MPH (from 50 MPH).
5. Congestion and traffic delays above normal seasonal conditions are expected with reduced lanes. Crews will try to limit the hours lanes are closed as much as possible.
6. After all the void work is completed, milling and resurfacing operations will take place on SR 54 from the US 41 intersection to east of Knight Road.

#### Important Dates

Work is expected to begin April 14, 2025, and is projected to be finished by early-June 2025, weather permitting.
