

# PROJECT OVERVIEW

## Project Improvements Include:

- Widening approximately 7.5 miles of I-275
- Adding two tolled express lanes in each direction from 38th Avenue N. to south of Gandy Boulevard (for a total of two)
- Adding one additional tolled express lane in each direction from south of Gandy Boulevard to 4th Street N. (for a total of two)
- Completing lane continuity improvements to provide drivers with ability to stay in a lane throughout the corridor
- Interchange improvements at:
  - 38th Avenue N.
  - 54th Avenue N.
  - Gandy Boulevard
  - Roosevelt Boulevard
- Constructing a 12-foot-wide shared use path along the north side of Ulmerton Road from Fountain Parkway N. to west of I-275
- Roadway and shared use path improvements will tie into the Gateway Expressway and Howard Frankland Bridge
- Construction began August 11, 2025. Completion anticipated in late 2030.
